BAPTIST VILLAGE OF OKMULGEE

Dear Village Family,

I'm very proud of the work that been done around campus, especially the fact that the north pond will be more attractive and accessible. The lawn service crew will mow all the way around the pond just as they do the south pond. We continue to do things at the Village to beautify our campus grounds and building, because we are in the business of enhancing lives.

Our mission statement is to honor God by providing quality living and compassionate health care in a Christian environment. To that end, we are continually looking for ways to make Baptist Village the best it can be, such as planting more flowers in the flowerbeds and updating the laundry areas. Also, our new hair stylist is now on board. Janell is a real asset to our ministry here.

One other thing I want to mention concerns our occupancy. Sadly, we have lost some very fine folks in recent weeks that had to move to skilled care, or have gone to their eternal home. If you can refer a prospective resident who moves to the Village, you will not only receive a very nice gift card, but also will bless those folks who come to be a part of our Village family.

Blessings to all,

Mike
